Fax: 1.800.765.4801 / 1.903.893.9576

Description —

A bronze top seal fill adaptor, which includes a fuel resistant Buna-N gasket and wrenching lugs for easy installation and removal. The adaptor is also available without wrenching lugs. Manufactured in accordance with the industry standard, this adaptor can be used with any standard top seal cap.

Application —

In an underground storage tank environment, the top seal fill adaptor is installed on the fill riser pipe in order to connect delivery drop elbows to the pipe in spill containment manholes.
