

VAPOR RECOVERY ADAPTOR

2828 Fallon Drive
Sherman, Texas 75090
Phone: 1.800.333.3599 / 1.903.892.8983
Fax: 1.800.765.4801 / 1.903.893.9576

Description —

Features a hard coated aluminum body, Buna-N gasket, chrome plated stem, stainless steel spring and is rated at 10 PSI maximum working pressure. This adapter is manufactured in compliance with industry standards and can be used with any standard vapor recovery cap.

Application —

Returns vapors to the transport tanker during UST filling. This popped adapter provides a vapor tight seal when not in use.
